Profile

3rd-year Engineering Student in **Data Engineering** at ENET'Com, holding a Bachelor's degree in Business Computing with a double degree from Le Mans University. Passionate about data, AI, and web development, I am seeking a graduation internship in an innovative environment to leverage and deepen my technical skills.

Academic Projects & Experience

Summer Internship – Retail Intelligence Platform

June 2026 / Anavid, Sfax

- Developed a Retail Intelligence platform dedicated to exploiting and analyzing customer and transactional data.
- Designed and implemented data processing workflows (feature engineering, Batch/Streaming pipelines with Apache Spark and Kafka) and built classification, regression, and clustering models.
- Developed Grafana dashboards to visualize key commercial KPIs, integrating them into the platform's web interface.
- Orchestrated and automated workflows using n8n.
- Implemented MLOps practices: tracking and versioning models and data with MLflow and DagsHub, exposing endpoints via FastAPI, and automating CI/CD workflows using GitHub Actions.
- Developed a RAG/Chatbot solution for intelligent data retrieval and interaction.
- **Technologies:** Python, Spark, Kafka, PostgreSQL, Grafana, n8n, Scikit-learn, MLflow, DagsHub, GitHub Actions, FastAPI, Ionic, React.

Year-End Project – Autism Detection using Graph Neural Networks

Feb. 2026 – Apr. 2026

- Applied the **GAT-LI** model on the **ABIDE I** dataset for autism classification.
- Preprocessed and analyzed neuroimaging data.
- Evaluated model performance metrics.
- Developed the NeuroScan platform using Flask for automated analysis of fMRI files and visualization of classification results.
- **Tools:** Python, Flask, PyTorch, Scikit-learn, NumPy.

Final Degree Internship – Donation Web Application

Feb. – June 2024 / Aziin, Sfax

- Designed and developed a donation web application for charitable organizations.
- **Tech Stack:** MySQL, Express.js, React.js, Node.js.

Education

2025 – Present: Engineering Degree – Data Engineering and Decision Support Systems – ENET'Com, Sfax

2023 – 2024: Bachelor's Degree in Business Computing – FSEGS, Sfax / Double Degree in Computer Science – Le Mans University (France)

2020 – 2021: High School Diploma (Baccalaureate) in Experimental Sciences – 15 November 1955 High School, Sfax

Technical Skills

Big Data & Streaming: Apache Spark, Kafka

MLOps & Visualization: MLflow, DagsHub, GitHub Actions, Grafana, n8n

Databases: MySQL, MongoDB, PostgreSQL

Languages: Java, Scala, Python, C, JavaScript, PHP, C#, Dart, PL/SQL

Frameworks: Symfony, Laravel, Spring Boot, Flutter, React, Express.js, FastAPI, Ionic

Tools & Environments: VS Code, Eclipse, Visual Studio, Linux, GitHub, Jupyter Notebook, Android Studio, Node.js

Languages

Arabic: Native **French:** Advanced / Upper-Intermediate **English:** Intermediate

Volunteering

Member – LEO Club Diwan Alpha (2018)

Participated in local social and humanitarian actions (family support, organizing solidarity events).

Interests

Machine Learning, Artificial Intelligence, Deep Learning, Data Science.
