Profile

3rd-year Engineering Student in **Data Engineering** at the National School of Electronics and Telecommunications of Sfax (ENET'Com), holding a Bachelor's degree in Business Computing. Passionate about data, artificial intelligence, and web development, seeking a graduation internship in an innovative environment to leverage and deepen my technical skills.

Academic Projects & Experience

Summer Internship – Retail Intelligence Platform *June 2026 | Anavid, Sfax*

- Developed a Retail Intelligence platform dedicated to the extraction and analysis of customer and transactional data.
- Designed and implemented data processing workflows (feature engineering, Batch/Streaming pipelines with Apache Spark and Kafka) and developed classification, regression, and clustering models.
- Developed Grafana dashboards to visualize key commercial KPIs, and integrated these dashboards into the platform's web interface.
- Orchestrated and automated workflows using n8n.
- Implemented MLOps practices: tracking and versioning models and data with MLflow and DagsHub, exposure via FastAPI endpoints, and CI/CD workflow automation with GitHub Actions.
- Developed a RAG/Chatbot solution for intelligent data retrieval and utilization.

Technologies: Python, Spark, Kafka, PostgreSQL, Grafana, n8n, Scikit-learn, MLflow, DagsHub, GitHub Actions, FastAPI, Ionic, React.

Year-End Project – Autism Detection using Graph Neural Networks *Feb. – Apr. 2026*

- Applied the **GAT-LI** model on the **ABIDE I** dataset for autism classification.
- Preprocessed and analyzed neuroimaging data.
- Evaluated model performance metrics.
- Developed a NeuroScan platform with Flask for automated analysis of fMRI files and visualization of classification results.

Technologies: Python, Flask, PyTorch, Scikit-learn, NumPy.

PFE Internship – Donation Web Application *Feb. – June 2024 | Aziin, Sfax*

- Designed and developed a donation web application intended for charitable organizations.

Technologies: MySQL, Express.js, React.js, Node.js.

Education

2025 – Present: Engineering Degree – Data Engineering and Decision Support Systems – ENET'Com, Sfax

2023 – 2024: Bachelor's Degree in Business Computing – FSEGS, Sfax / Double Degree in Computer Science – Le Mans University (France)

Technical Skills

Big Data & Streaming: Apache Spark, Kafka
MLOps & Visualization: MLflow, DagsHub, GitHub Actions, Grafana, n8n
Databases: MySQL, MongoDB, PostgreSQL
Languages: Java, Scala, Python, C, JavaScript, PHP, C#, Dart, PL/SQL
Frameworks: Symfony, Laravel, Spring Boot, Flutter, React, Express.js, FastAPI, Ionic
Tools: VS Code, Eclipse, Visual Studio, Linux, GitHub, Jupyter Notebook, Android Studio, Node.js

Languages

Arabic: Native **French:** Advanced / Upper-Intermediate **English:** Intermediate

Interests

Data Engineering, Data Science, Machine Learning, Deep Learning, Artificial Intelligence.
